670.5
v. 22

Index to Volume XXII.

A

Abrasives, The Production of Artificial, 44.
Accidents in American Steelworks, 935.
Acid Brittleness, 854.
Admiralty Experiments on Aluminium-Alloy Pistons for Submarine Oil-Engines, 865.
Alloys of Carbon with Manganese, Nickel, Iron, Cobalt and Chromium, 853.
Alloys of Copper and Silicon, 52.
Aluminium Alloys in the Foundry, 550.
American Society of Mechanical Engineers' Symposium on Castings, 710.
American Society for Steel Treating, 880.
Anchor, Investigation of the Failure of a Cast Steel, 224.
Annealing Malleable Casting, Tunnel Kilns Used for, 874
Annealing of Castings for Machinery, 30.
Apparatus for the Determination of the Porosity of Metals, 787.
Atomic Structure of Metals in Solid Solution, 215
Austin Motor Company, Limited, Steel Foundry at the Works of, 696.

B

Basset Direct Steel Process, 691.
Bench Grinder, Griffin, 867.
Book Review, 304, 798
Brass, The Influence of Cadmium on the Properties of, 459.
Brass Foundry, Consumption Figures in the, 386.
Brass Foundry Fluxes, 857.
"Brass Itch," How to Relieve, 118.
Breaking-up Large Feeder Heads for Re-melting, 692.
British Cast-iron Research Association, 839.
British Engineering Standards' Association, 780.
British Grey and Malleable Cast-Iron Research Association, Meeting in Birmingham, 839.
Brittleness, Acid, 854.
Broadbent's Foundries at Huddersfield, 757.
Bronze Castings, Elastic Properties of, 701.

C

Carbon, Determination of, in Iron and its Alloys, 861
Case Hardening Process, Shimer, 57.
Case-Hardening in Rotary Furnaces, 48.
Case-Hardening of Steel, 141
Casting, American Society of Mechanical Engineers Symposium on, 710.
Castings for a Condenser; Part I., 543; Part II, 604
Castings, The Production of good Iron, 870.
Casting Temperature, Measure of, in the Brass Foundry, 688.
Castings, Making, for Rolling Mill Construction, 847.
Castings Trouble, The, 941
Castings Used in Ship Construction; Part 1., 21: Part II., 119; Part III., 289, 453.
Casting Machines, Rotary, 345.
Cast Iron, Graphite and Pearlite, 188.
Cast Iron, The Properties of, 436.
Cast Iron in Theory and Practice, 285.
Centrifugal Casting, Manufacture of Projectile Bands by, 185.
Centrifugal Castings, Permanent Moulds and, 618
Centrifugally-Cast Pipes in South America, 55.
Centrifugal-Cast Piston Rings, 615.
Clyde Steel and Engineering Works, Hamilton, 367.
Cobalt, The Influence of Nickel and, on the Physical and Chemical Properties of Cast Iron.
Companies, New, 70, 150, 232, 312, 392, 478, 560, 640, 720, 800, 888, 968.
Compressed Air and Vacuum Methods of Die Casting, 463.
Consumption Figures in the Brass Foundry, 386.
Condenser, Castings for a, 543 and 604.
Continuous Electrodes, 776.
Contribution to the Study of Ferro-Silicon, 46
Conveyors, Foundry, 961.
Copper and Silicon, The Alloys of, 52.
Core-Floor Essentials, 109.
Core-Oven, Electrically-Heated, 789.
Core Stoves and Mould Drying, 530.
Correspondence, 108, 199, 611.
Corrosion of Cast Iron, 139.
Corrosion and Stainless Steel, 56.
Costing, Foundry Organisation and, 353.
Costing, Ironfoundry, 288.
Costs of Steel Smelting, 944.
Cupola Charges, Method of Determination of, 856.
Cupola Designed for Continuous Operations, 705
Cupolette, Improved Rapid Melting, 555.
Cupro-Titanium, 792.
Cutting Properties of Stainless Steel, 116
Cylinders, Moulding, and Foundry Costs, 683

D

Deaths, 68, 146, 228, 310, 390, 476, 560, 638, 720, 798, 886, 966.
Defects in the Foundry Organisation, 793.
Design and Treatment of Steel Castings, Some Practical Notes on the, 433.
Design of Electric Furnaces, 45.
Determination of Carbon in Iron and its Alloys, 861.
Die-casting, Compressed Air and Vacuum Methods of, 463
Die-casting Plant, 198.
Diesel Engine Castings 440.
Difficulties in Making Steel Castings, 216.
Direct Steel Process (Basset), 691.
Dowels, 225.
Drawbacks, Sifters, Rods and Nails, 599.

E

Economics in a Malleable Iron Foundry, 131
Education in Relation to the Foundry Trades, 362, 791, 855.
Education of the Ironfounder, 137
Effect of Initial Temperature upon the Physical Properties of Steel, 521.
Effect of Various Elements on the Electrical Resistivity of Iron, 602.
Elastic Properties of Bronze Castings, 701.
Electrical Furnace, Induction, 945.
Electrically-heated Core-ovens, 789.
Electrically-heated Metal Pattern Plates, 472.
Electrical Process of Steel Manufacture, 202
Electric Furnaces, The Design of, 45.
Electric Furnaces, Gallinkamp, 41
Electric Furnaces for Non-Ferrous Metals and Alloys, 612.
Electric Furnaces, Refractories for, 960.
Electric Furnace for Steel and Non-Ferrous Metals, 526.
Electric Smelting of Iron Ore in Norway, 857.
Electric Steels, 762.
Electric Wrench, Drill, and Screwdriver, 467.
Electrodes, Continuous 776.
Elements in Cast-Iron, 377.
Elimination of Strains in Castings, 45
Enamelled Cast-Iron Wares, Materials and Methods Used in the Manufacture of, 213.
Endurance Tests in Cast Steel, 47.

F

Factors Contributing to Soundness in Castings, 373
Ferro-Silicon, a Contribution to the Study of, 46.
Flasks, Core Plates, and Bottom Boards, Pressed Steel, 707.

Fluxes, Brass Foundry, 857.
Foreign Foundry Practice, 50.
Foundry Conveyors, 961.
Foundry Equipment, Modern American, 863.
Foundry Facings, 40.
Foundry Management Production and the Human Factor in, 209
Foundry Management and Selling, 36.
Foundry, New Steel Castings, at Hadfields, Ltd., 864.
Foundry Organisation and Costing, 353.
Foundry Practice, 211.
Foundry Practice, Foreign, 50.
Fraser and Chalmers' Engineering Works, 595.
Froth Flotation Process for Separating Metals from the Ore, 541.
Furnace, Electrical Induction, 945
Furnaces, Gas-heated, Crucible and Oven, 711.
Furnace for Testing Firebrick under Load at High Temperatures, 277.
Future Research on Cast Iron, 690.
Future Status of the Foundryman, 708.

G

Gallenkamp Electric Furnaces, 41.
Gas-heated Crucibles and Oven Furnaces, 711.
Geological Examination of Moulding Sands, 448.
Glenfield & Kennedy, Limited, Iron Foundries of, 446.
Graphitisation of Iron-Carbon Alloys, 772.
Grid and its Uses, 189.
"Griffen" Bench Grinder, 867.
Growth of Grey Cast Iron, 693.

H

Handling Molten Iron at the Cupola, 788
Hardness Tester, Rockwell, 778.
Hartford Quick-Acting Vice, 556.
Heat Treatment of Carbon Steel, 460.
Heat Treatment Furnace, Richards-Kane, 58.
Herbert Patent Sand-Mixing Machine, 876.
High Temperature Measurements and Refractory Materials, 42.
Hinged Moulding Boxes, 305.
How to Relieve "Brass Itch," 118.
Human Element in Industry, 275.
Hydrogen, Penetration of Iron by, 439.

I

Impressions of a Sheffield Foundryman in America, 133
Improved Moulding Machine, 470.
Improved Rapid-Melting Cupolette, 555
Induction Electrical Furnace, 945.
Influence of Cadmium on the Properties of Brass, 459.
Influence of Silicon in Cast Iron, 101.
Influence of Nickel and Cobalt Additions on the Physical and Chemical Properties of Cast Iron, 936.
Institution of British Foundrymen :—
Annual Conference, Glasgow, 675 and 781.
Birmingham Branch, Annual Dinner, 41—299.
Coventry Branch, Annual Meeting, 533.
Lancashire Branch, Annual Dinner, 212.
Newcastle Branch, Annual Meeting, 955
Sheffield Branch, Annual Dinner, 371.
Institute of Metals, 272.
Investigation of the Failure of a Cast-Steel Anchor, 224.
Iron and Steel Institute, Adjourned Annual Meeting at Sheffield, 521.
Iron and Steel Institute, Annual Meeting in London, 425.
Iron Carbide, Solubility and Stability of, in Cast Iron, 270.
Ironfoundries of Messrs. Glenfield & Kennedy, Limited, 446.
Ironfoundry Costing, 288.

J

Jigs, Pattern Making, 774.

L

Ladles, a New Way to Heat Small, 464.
Lay-out for a Small Foundry, A Suggested, 199.
Loam Pattern for a Large-Diameter Double-Bend Pipe, 852.

M

Magnesium, New Alloy of, 862.
Making Castings for Rolling-Mill Construction, 847.
Malleable Cast Iron and the Reduction of Sulphur in Blackheart, 51.
Malleable Iron Foundry, Economies in a, 131
Manufacture of Moulding Boxes, 868.
Manufacture of Refractory Materials, 39.
Manufacture of Rotating Projectile Bands by Centrifugal Casting, 185.
Manufacture of Silica, 44.
Mass Production in the Foundry, 610.
Materials and Methods Used in the Manufacture of Enamelled Cast-Iron Wares, 213.
Measurement of Casting Temperatures in the Brass Foundry, 688.
Method for Determining Cupola Charges, 856.
Microscope, The Use of the, in Solving Foundry Problems, 279.
Microscope, Use of, in Malleable Iron Industry, 717.
Microstruction of Iron and Mild Steel at High Temperature, 598.
Modern American Foundry Equipment, 863.
Modern Foundry Sand-Handling Equipment, 468.
Modern Recalescence Apparatus, 197.
Monel Metal, Rapid Analysis of, 462.
Moulding Boxes, Hinged, 305.
Moulding Boxes, The Manufacture of, 868
Moulding Cylinders and Foundry Costs, 683.
Moulding Hand Rope Whee's with Wrought-Iron Spokes, 709.
Moulding Machine, An Improved, 470.
Moulding Machines, Suspended, 790.
Moulding Sands, The Geological Examination of, 448.
Moulds, Permanent, for the Casting of Glass Articles, 785.

N

National Physical Laboratory, 549.
New Alloy of Magnesium, 862.
New England Foundrymen's Association, 108
New Split-Belt Pulley, 786.
New Steel Castings Foundry at Hadfields, Limited, 864
New Steel Foundry at Washington Ironworks, 860.
New Testing Machines, 384.
New Transverse Testing Machine, 278.
New Way to Heat Small Ladles, 464.
New Year Honours, 108.
Nickel-Chromium, Temper, Brittleness of, 770.
Nickel and Cobalt, The Influence of, on the Physical and Chemical Properties of Cast Iron, 936.
Notes on the Properties of Pig-iron, 369.
Notes and Comments, 49, 117, 200, 287, 365, 444, 535, 613, 694, 779, 859, 943.

O

Organisation, Defects in Foundry, 793.
Ovens, Vacuum, for Drying Cores, 59

P

Parliamentary Notes, 66, 308, 638.
Patents, Applications for, 148, 230, 310, 390, 475, 560, 636, 716, 890, 964, 972.
Pattern-Plates, Electrically-heated Metal, 472.
Pattern Plates for Repetition Castings, 297.
Pattern Making for Hand Moulding Machines, 515.
Pattern-making Jigs, 774.
Penetration of Iron by Hydrogen, 439.
Permanent Moulds for the Casting of Glass Articles, 785
Permanent Moulds and Centrifugal Castings, 618.
Permanent Moulds, Use of, in Radiator Castings, 214.

PUBLIC LIBRARY
BIRMINGHAM

Personal, 65, 146, 230. 308, 388, 476, 558, 634, 718, 798, 884, 966.
Pig-iron, Notes on the Properties of, 369.
Pipe, Loam Pattern, for a Large Diameter Double-bend, 852.
Pipe Moulding, Use of Rotating Patterns in. 223.
Piping in Steel Ingots, Prevention of, 194.
Pistons, Admiralty Experiments on Aluminium Alloy, for Submarine Oil Engines, 865.
Piston-rings, Centrifugally Cast, 615
Porosity of Metals, Apparatus for the Determination of, 787.
Powdered Coal for the Small Foundry, 465.
Practical Notes on the Design and Treatment of Steel Castings, 433.
Pressed-steel Flasks, Core Plates, and Bottom Boards, 707.
Pressure Due to Fluid Iron in Moulds, 629.
Prevention of Piping in Steel Ingots, 194.
Production of Artificial Abrasives, 44.
Production of Good Iron Castings, 870.
Production and The Human Factor in Foundry Management, 209.
Properties of Cast Iron, 436
Pulleys, New Split Belt, 786.
Pure Gum Shellac, 196.

R

Railway-Chair Foundry, 775.
Railway Materials, Testing of, 304
Rapid Method for the Analysis of Monel Metal, 462.
Recalesence Apparatus, A Modern, 197.
Reduction of Sulphur in "Blackheart" Malleable Cast Iron, 51.
Refractories for Electric Furnaces, 960.
Refractory Materials, High Temperature Measurements and, 42.
Refractory Materials, The Manufacture of, 39.
Refractory Materials The Testing of, 33.
Research on Cast Iron, Future, 690.
Resistivity, Effect of Various Elements on the Electrical, of Iron, 602.
Richards-Kane Heat-Treatment Furnace, 58.
Rockwell Hardness Tester, 778.
Rotary Casting Machines, 345
Rotating Patterns, Use of, in Pipe Moulding, 223
Runners and Risers, 938.
Runners, Structure of Steel, 195.
Rust-Proofing Iron and Steel, 461.

S

Sand-Handling Equipment, Modern Foundry, 468.
Sand-Mixing Machine, Herbert Patent, 876.
Sand, Testing of Foundry, 829
Science in the Foundry, 265.
Science in the Foundry, 382.
Science in the Workshop, 684
Semi-Steel, 627.
Silica, The Manufacture of, 44.
Silicon, Influence of, in Cast Iron, 101.
Silicon in Cast Iron, 379
Shellac, Pure Gum, 196.
Shimer Case-Hardening Process, 57
Solubility and Stability of Iron Carbide in Cast Iron, 270.
Soundness in Castings, Factors Contributing to, 373
Springfield Steel Foundry, Glasgow, 537.
Stainless Steel, Corrosion and, 56.
Stainless Steel, the Cutting Properties of, 116.
Steel Castings, Difficulties in Making, 216.
Steel and Its Defects from the User's Point of View, 364.
Steel Foundry at the Works of the Austin Motor Company, Limited, 696.
Steel Foundry at Vulcan Ironworks, 53.
Steel Smelting, Costs of, 944.
Steel Treating, American Society for, 880.
Steel, Use of, in Cupola Mixtures, 116.
Strains in Castings, the Elimination of, 45
Strains, Stress and, in Light Castings, 126
Stresses and Strains on Light Castings, 126
Structure of Steel Runners, 195.
Suggested Lay-out for a Small Foundry, 199.
Suspended Moulding Machines, 790.

T

Temper Brittleness of Nickel Chromium, 770
Testing of Castings, 449.
Testing of Foundry Sands, 879
Testing Machines, New, 384.
Testing Machine, New Transverse, 278.
Testing of Railway Materials, 304.
Testing of Refractory Materials, 33.
Thermostatic Metal, 542.
Trade Talk, 60, 143, 226, 306, 387, 473, 556, 633, 713, 794, 881, 962.
Tunnel Kilns Used for Annealing Malleable Castings, 874.

U

Use of Microscope in Malleable-Iron Industry, 777.
Use of the Microscope in Solving Foundry Problems, 279.
Use of Permanent Moulds for Radiator Castings, 214
Use of Rotating Patterns in Pipe Moulding, 223.
Use of Steel in Cupola Mixtures, 116.

V

Vacuum Ovens for Drying Cores, 59.
Vice, Hartford Quick-Acting, 556.
Visit to the American Foundrymen's Convention, 533
Vulcan Ironworks, The Steel Foundry, 53.

W

Washington Ironworks, New Steel Foundry at, 860.
"Wasters," 931.
Wheels, Moulding Hand Rope, with W. I. Spokes, 709.

X

X-Rays Applied to Examination of Metals, 466.

Z

Zirconium, Effect of, in Cast Iron, 959.
